

## Notice

Dear Esteemed Customers,

To improve CST brand identity in Latin-America market, we cooperate with a Spanish agency and create a new slogan in Spanish 'No LE DES MAS VUELTAS'. At this stage, we've designed and built tire rack and banner in Spanish style. Please see following images for reference. The tire rack and banner will be expected to be available in July. We hope you could take good advantage of these new promotion items. We will send you a separate email to discuss how to arrange the tire rack and banner to you shortly.
